

that Defective Detective Jason Price was simply a LIAR!!!

After Judy's testimony, Randy Kelton and Dave Mack prevailed upon me as to the fact that I was not well and it was showing in my performance, wherefore they were strongly suggesting that I should have the court appointed attorney, Sten Langsjoen, take over, whereupon Sten insisted on an allowance of time to bring himself up on my defenses, so judge Dwight Phifer declared he wanted me to obtain a doctor's check up in order to verify the state of my physical health, and proceedings that morning were adjourned until Thursday morning 9:00 am.

I traveled to Tyler Texas and was able to obtain a properly detailed check up from Dr. DeWet MD., whose report plainly stated that I was an emergency case urgently requiring medical care!!!

Thursday, March 29 judge Dwight Phifer gave the jury the day off expecting me to bring attorney Sten Langsjoen up to speed, in order for the case to continue with the Jury on Friday morning, so I made a valiant effort to prepare for the next day.

Friday, March 30 after being up all night, unable to sleep due to my lungs filling up with fluid, and rendering me utterly exhausted from trying to keep breathing with a greatly reduced lung capacity, by phone I informed Dave Mack and Caleb Eaton who were in a nearby motel room, that I would have to go to the hospital. Attorney Sten Langsjoen witnessed the massive swelling in my legs and my shortness of breath just before Caleb Eaton took me to Trinity Mother Francis Hospital in Jacksonville where I was immediately admitted at the Emergency care area. Given that Dr. DeWet's report plainly stated that I was an emergency case urgently requiring medical care, judge Dwight Phifer was aware that physically I was in dire straits and he never should have had me spend Thursday helping attorney Sten Langsjoen get up to speed, all in order to expedite the OUTLAWRY via bogus prosecution/persecution which has from the beginning been intended to kill me, as evidenced by the outrageous stacking of utterly bogus charges which had already caused a heart attack on January 26, 2009, resulting in an ambulance taking me from the jail to the hospital for oxygen and nitro!!!

District Attorney Elmer Beckworth moved to have my current bond forfeited and a cash bond set for me, apparently in conjunction with a warrant for my arrest, despite attorney Sten Langsjoen's verification that he had witnessed my condition.

Friday morning through to late Monday afternoon Ryan D. Ford MD. and the nursing staff worked diligently to save my life prior to discharging me from the hospital, and I left a little after 6:00 pm. on Monday April 2, 2012.

Tuesday April 3, apparently my trial is now set off to April 25, 2012.

Always remember, "Every day above ground and out of jail, is a great day."

Should we feel sorry for the prosecutors and their lackeys at the pretend police department??? I don't think so!! Let them choke and puke on their bogus charges!!
