

# **UNREGISTERED FOREIGN AGENTS**

## **Collecting Information & Contributions for a Foreign Power is a Highly Restricted Activity REQUIRING A FOREIGN AGENT REGISTRATION**

Officers of the court have acted in collusion as unregistered foreign agents, 18 USC § 951, serving the interests of foreign powers, attempting to collect information and contributions while acting on behalf of INTERPOL, the International Monetary Fund, and the Middle Temple of the Crown. It is plain and clear that John Q. Citizen, cannot be lawfully compelled to participate in felonies being executed by unregistered foreign agents acting to secure information and contributions for foreign powers, especially noting the collection of information for the foreign terrorist organization established by the Nazi Gestapo Colonel Otto Steinhausl as per attached exhibit made a part hereof, and known as INTERPOL with former SS officer Paul Dickopf as President 1968-1972, said information being transmitted via Maryland State Police as per page 276 of the 2003/2004 United States Government Manual, while said agents know or should know that being in the service of a foreign power voids citizenship as a matter of law; John Q. Citizen, was seized for the purpose of summary collection of information and contributions for a foreign power in violation of 18 USC § 951; indeed an armed assault executed by unregistered foreign agents cannot be converted to a crime on the part of living soul John Q. Citizen when he is simply the victim of FRAUD; the persecutors in the courtroom and the

tormentors outside the courtroom would have everyone believe they work for the State of Texas or some political subdivision thereof, however they do not work for the State of Texas. Are they paid in Constitutional gold, NO! Constitutional silver, NO! Warrants or checks, YES! States are prohibited from emitting bills of credit and warrants or checks are clearly bills of credit. Furthermore, the State cannot do indirectly that which is prohibited directly. Article 1, section 10 of the Constitution for the United States has never been repealed. These characters are in fact and in law, unregistered foreign agents, an activity punishable by ten years in prison plus a seventy-five thousand dollar fine. Indeed, they would have the public believe that they are the State of Texas subsidized by the United States Federal government; however, even the so-called federal agents are paid by the Secretary of the Treasury a/k/a governor of "The Bank" and "The Fund" 22 USC § 286 as opposed to the Treasurer of the United States. Timothy Geithner is expatriated, has absolutely no allegiance to the United States of America, as per Mendaro v. World Bank, 717 F.2d 610 C.A.D.C. (1983), and enjoys diplomatic immunity and Ambassador status. Timothy Geithner is not paid by the United States and his agents do not work for the United States, they are working for the receiver in bankruptcy, as per 5 USC § 903 Reorganization Plan #26, the alien Corporate Governor of the International Bank for Reconstruction and Development and the International Monetary Fund 22 USC § 286(a). It is axiomatic that these alleged agents cannot serve two masters; reason alone would indicate that the principal is not the United States or any of the states united. The real party of interest is the International Monetary Fund and the Bank for Reconstruction and Development. 22 USC § 611a. Anyone who chooses to go into the service of a foreign power automatically gives up his citizenship as a matter of

law, as per 8 USC § 1481 and 50 USC § 781, verifiable by looking inside a United States passport. It is clear that the entire persecution causing suffering in this matter is a GIANT FRAUD in that nowhere has living soul John Q. Citizen been apprised of the true nature and cause of any accusation, the jurisdiction and authority under which unregistered foreign agents are proceeding, thereby prejudicing his defense and violating his perfect immemorial imprescriptible right. This may raise an issue of 18 USC § 951 and much more. It is a clearly established principle of law that a corporation being incorporeal and a creature of the law must be represented by an attorney. An attorney representing an artificial entity must appear with the corporate charter and law in his hand. A person acting as an attorney for a foreign principal must be registered pursuant to the Foreign Agents Registration Act (22 USC § 612 et seq.) See Victor Rabinowitz et. al. v. Robert F. Kennedy 376 US 605, 11 L. ed 2d 940, 84 S Ct. 919, and any persecutor and/or associates appearing on behalf of said international agents, failed and neglected to establish authority, and has acted in collusion to prosecute frivolous, false, and sham allegations in what can now be seen as a blatant extortion operation on behalf of the International Monetary Fund (IMF), utilizing abuse of process and whatever nefarious means available without regard to law, on an above the law basis. The United States and the State of Texas are completely and totally bankrupt. There is no Constitutional authority for operating in bankruptcy. The legislative, executive, and judicial branches no longer exist as the alleged government has been dissolved and the entire country has been received in bankruptcy by the International Monetary Fund (IMF) through a series of emergency acts. Indeed, as for the three branches of government, there is a greater likelihood of the existence of Santa Claus, the Tooth Fairy, and the Man in the Moon because the entire operation

is owned and operated by a multi-faceted organization whose principal is the IMF and The World Bank. I deny the false and fraudulent allegation that the *de jure* "State of Texas" is the real party in interest, and note for the record that the "State of Texas" as used by any unregistered foreign agent attorney or associates, is the alter ego of The Fund and The Bank, and as a voting share stockholder and incorporator, 22 USC § 286 (e), and while under numerous disabilities, and in fraud and contravention of and to the Supreme Law of the Land and forum State, has waived and relinquished sovereign character, see The Bank Of USA v. Planter's Bank Of Georgia, 6 L. ed 244. De facto foreign agents while acting under false and fraudulent pretenses and colors of authority were and are soliciting and collecting information, contributions, loans, money, or other things of value for or in the interest of their foreign principals (see Multilateral Economic Assistance Act of 1992, Public Law 102-391, 106 Stat. 1633), and being directly or indirectly subsidized, directed, controlled, or financed by said foreign powers, and while deceitfully and covinously agreeing to conceal their true character and principal were and are engaged in promoting and furthering the principles and doctrines of One World Government in direct violation of Public Law 471 Chapter 456, section 109:

*"None of the funds appropriated in this title shall be used: (1) to pay the United States contribution to any international organization which engages in the direct or indirect promotion of One World Government or One World Citizenship; (2) for the promotion, direct or indirect, of the principle or doctrine of One World Government or One World Citizenship."*

Respondent/accusers, if in fact officers or employees of the *de jure* State of Texas, are required to obey the law of the

land and are liable to criminal prosecution for criminal violation of the aforesaid laws of the United States Of America and Public Law 471 Chapter 456 Title VI § 601. The witnesses and evidence I have available in an offer of proof, including but not limited to all exculpatory evidence, is applicable due to information, constitutions of foreign organizations, secret agreements, rules, regulations and documents which will vindicate the accused and prove the unlawful acts and omissions of the respondent/accusers both preceding and during the commencement of this malicious persecution. See Constitution for the United States of America, Amendments IV, V, VI, VIII, IX, and X.
