The Biggest Thing to Hit This Country in 150 Years is In Your Hands!!!

Have you known for a long time that things in this country just weren't right but you really couldn't put your finger on what the REAL problem was? Have you had neighbors, friends or family that have lost their homes to foreclosure when the banks wouldn't work with them on refinancing? Have you ever had to pay a large fine for some offense that really didn't seem right because nobody had been hurt or damaged in any way? Do you know anyone that has ever been subjected to harassment or penalties by the IRS?

If any of these questions have been answered with a YES then you are like almost every other person in this country. Are you pleased with what is being done by Washington about healthcare, the environment (think the gulf oil situation), the collapse of the stock market and a multitude of other things happening in this country? If you answered this question with a NO then you are like many of your fellow Americans!

Isn't it time to do something about this instead of sitting and wondering what is going to happen next? Isn't it time to say enough is enough? Isn't it time to TAKE ACTION??? The ***Restore America Plan*** is a plan of ACTION that needs YOUR help to make it successful

We ARE taking action to restore America!! We are the people of America and we have had enough and we have formed and are moving forward with the ***Restore America Plan***. If you haven't heard about it yet then here it is right in your hands. This is your opportunity to become involved in the greatest movement to bring back the America that we all wish we had that has been taken away from us by some very devious and very intelligent people. This is YOUR opportunity to make a difference by getting involved!!

There are many things that the American public doesn't know about because they have been hidden from every person in this country. You may not realize it at this point but you have been indoctrinated rather than educated! You may find that hard to believe but sometimes the truth comes to us as a harsh reality at some rather inopportune times. The ***Restore America Plan*** is moving forward to stop the indoctrination and deception of the people of this country and bring back the government that is BY the people and FOR the people.

We hope you will take the time to begin learning what so many others are starting to learn about what is REALLY going on in America before it is too late. Time IS of the essence right now to take action before it is too late. The ***Restore America Plan*** is already in full swing and we need the participation of every single person in America! Please join with us to bring a true restoration of America back to what it should be!!
