Codes
Regulations

WORKSHOP LOCATION:

Santa Ana Workshop

Elk's Lodge Santa Ana Ca.

212 S Elk Lane

Santa Ana, CA 92701-5011

714.547.7794 (Office)

Workshop, not Seminar

This will be a two-day event that will include homework/test for all attendees. Additionally each attendee will receive information on where to locate and download:

- ◆ **Cases on the Internet,**
- ◆ **The laws of the particular state** where respective attendees have their habitation of choice,
- ◆ **The Rules of the Court** of the particular state where respective attendees have their habitation of choice,
- ◆ **The United States Statutes,**
- ◆ **The United States Codes,**
- ◆ **The Code of Federal Regulations**
- ◆ **Judges Bench Book**

There will also be a virtual trip to the Law Library, which will demonstrate how to do various types of legal research and verification, including the ever popular, "How To Shepardize A Case."

No Theory

While other workshops attempt to dazzle you with theory, hype, and grocery lists of "the cousin of my best friend's uncle said," we offer only **verified** data on **relevant** issues facing Americans today.

Many of us today cannot afford to "try" something and see if it will work. We are facing real problems and real threats; we can only achieve the success we need by utilizing real tools and applying proven techniques.

If you are sick and tired of being sick and tired, if you are ready to take responsibility for your own actions, then this workshop is for you. We teach how to take control over the issues you are facing and give you the tools to use "the system" against itself.

Learn the different types of law confronting you; how to **verify court cases**, and how to **deal with the threat of foreclosure**.

Stop wondering what you should do and **learn how to do it for yourself.**

STORM BEFORE THE CALM

Before we can deal effectually with Banks, the IRS, Social Security, and the like, we must first understand the rules under which they operate. By learning the rules that govern banking, we may then determine which laws govern their actions and how the Banks are failing to comply with those laws. That includes the activities they are both required and forbidden to practice. **Any attempt to deal with Banks (lenders) apart from this understanding is doomed to fail.**

WE PUT YOU IN THE DRIVER'S SEAT

No more trusting in someone else to know it, to do it, or to understand it for you. Learn to use the tools you need to get the victory you seek. Take a hands-on approach to your learning. Sitting in a hard chair doodling until the next break is now a thing of the past. You will not simply learn the things you need to do in order to win, you will do them. Because no one cares more about your problem issues than you do, our workshop is designed to put **you**, the man or woman most interested in your victory, right in the driver's seat.

PEACE AT LAST

Having learned the basics of how to do research and to organize your materials, responding to a late notice or some similar banking or mortgage issue should no longer be a terrifying ordeal. You can have peace in your life knowing that you have the materials you need for the task at hand. Join us in what we believe is a power-packed Workshop and **stop living in fear.**

—Dan & Richard

WHAT PEOPLE SAY ABOUT US

"I got my money's worth by 9:00 a.m. day one." —Mitchell Jones, PA

"This was the most in-your-face, kick-ass conference I have ever been to." —F. F., CA

"I cannot thank you enough for doing this Workshop. You guys tell it like it really is, and that is what we need." J. K., CA
